

## Waterloo Nomination Group

---

**WATERLOO NOMINATION GROUP**

<b>ALLOCATION BACKGROUND</b>	Favorable East Leg pricing caused Market Area Shippers to nominate increased quantities of interruptible and alternate firm transactions through the Galena compressor station. This resulted in constraints through the Waterloo compressor station. In order to better effectuate capacity allocations at the smallest affected area in the Market Area, Northern established a Waterloo allocation group (Group 773).
<b>ALLOCATION CRITERIA</b>	Nominations for delivery downstream of the Waterloo, Iowa compressor station to the end of Northern's pipeline in Zone D exceed the capacity of Northern's Waterloo compressor station.
<b>ALLOCATION GROUP CAPACITY</b>	786,000 Dth Summer (Apr - Oct) 840,000 Dth Winter (Nov - Mar)
<b>ALLOCATION SPECIFIC DETAILS</b>	<p>Shippers nominating at a zone level will be presumed to have nominated pro-rata based on the entitlement at the affected Zone D delivery points listed provided in link below. The pro-rata share will be calculated by the percentage of the Firm MDQ contracted at each of the identified Zone D delivery points relative to the Shipper's total contracted firm MDQ at Zone D.</p> <p>When Shippers nominate directly at any of the points listed below rather than at the zone level, the nominated quantity at the point will be included in the allocation.</p> <p>The group capacity will be allocated based on the following priority of service:</p> <ol style="list-style-type: none"> <li>1. First off (lowest priority) - Interruptible nominations are allocated by price</li> <li>2. Next off - Alternate Firm Delivery Point sourced from Alternate Firm Receipt Point (allocated pro rata)</li> <li>3. Next off - Alternate Firm Delivery point sourced from a Primary Firm Receipt Point and Primary Firm Delivery point sourced from an Alternate Firm Receipt Point (allocated pro rata).</li> <li>4. Last off (highest priority) - Primary Firm Delivery point sourced from Primary Firm Receipt (allocated pro rata).</li> </ol>

**SPECIFIC DELIVERY POINTS IMPACTED**

Waterloo Nomination Group includes the majority of points in Zone D. All points that are subject to allocation can be viewed by clicking on the following link.

[Affected Waterloo Nomination Group Delivery Points](#)

**SPECIFIC RECEIPT POINTS NOT IMPACTED**

Nominations from the following receipt points to the delivery points listed above would not be impacted by the Waterloo Nomination Group allocation because they are unaffected by the constraint. ***However, please note that NONE of these receipt points can be used when "truing-up" daily increase takes on ANY of the allocated delivery points during the Final Cycle. As a reminder, per the 8:00 AM Non-Grid Final Nomination Process Guidelines, NO increases to physical allocated points can be made.***
