

Welcome Nomination Group

WELCOME NOMINATION GROUP

ALLOCATION BACKGROUND	If physical quantities nominated for receipt at Northern’s Welcome interconnect with Northern Border exceed the market deliveries in the defined area from Paullina compressor west up the Aberdeen branch line to the Sioux Falls #1 TBS and also north to the Minneapolis 1P TBS then Northern may need to allocate receipts from Welcome receipt point. Northern has established a Welcome Nomination group (Group 751) to address such situations.
ALLOCATION CRITERIA	Receipt at the NBPL Welcome interconnect scheduled to be delivered outside of the defined group exceeds the take away capacity surrounding the NBPL Welcome interconnect.
ALLOCATION GROUP CAPACITY	208,000 Dth
ALLOCATION SPECIFIC DETAILS	<p>Shippers nominating at a zone level will be presumed to have nominated pro-rata based on the entitlement at the affected Zone EF delivery points listed provided in link below. The pro-rata share will be calculated by the percentage of the Firm MDQ contracted at each of the identified Zone EF delivery points relative to the shipper’s total contracted firm MDQ at Zone EF. When shippers nominate directly at any of the points listed below rather than at the zone level, the nominated quantity at the point will be included in the allocation. The group capacity will be allocated based on the following priority of service:</p> <ol style="list-style-type: none"> 1. First off (lowest priority) – Interruptible nominations are allocated by price 2. Next off – Alternate Firm Delivery Point sourced from Alternate Firm Receipt Point (allocated pro rata) 3. Next off – Alternate Firm Delivery point sourced from a Primary Firm Receipt Point and Primary Firm Delivery point sourced from an Alternate Firm Receipt Point (allocated pro rata). 4. Last off (highest priority) - Primary Firm Delivery point sourced from Primary Firm Receipt (allocated pro rata).

WELCOME GROUP DELIVERY POINTS

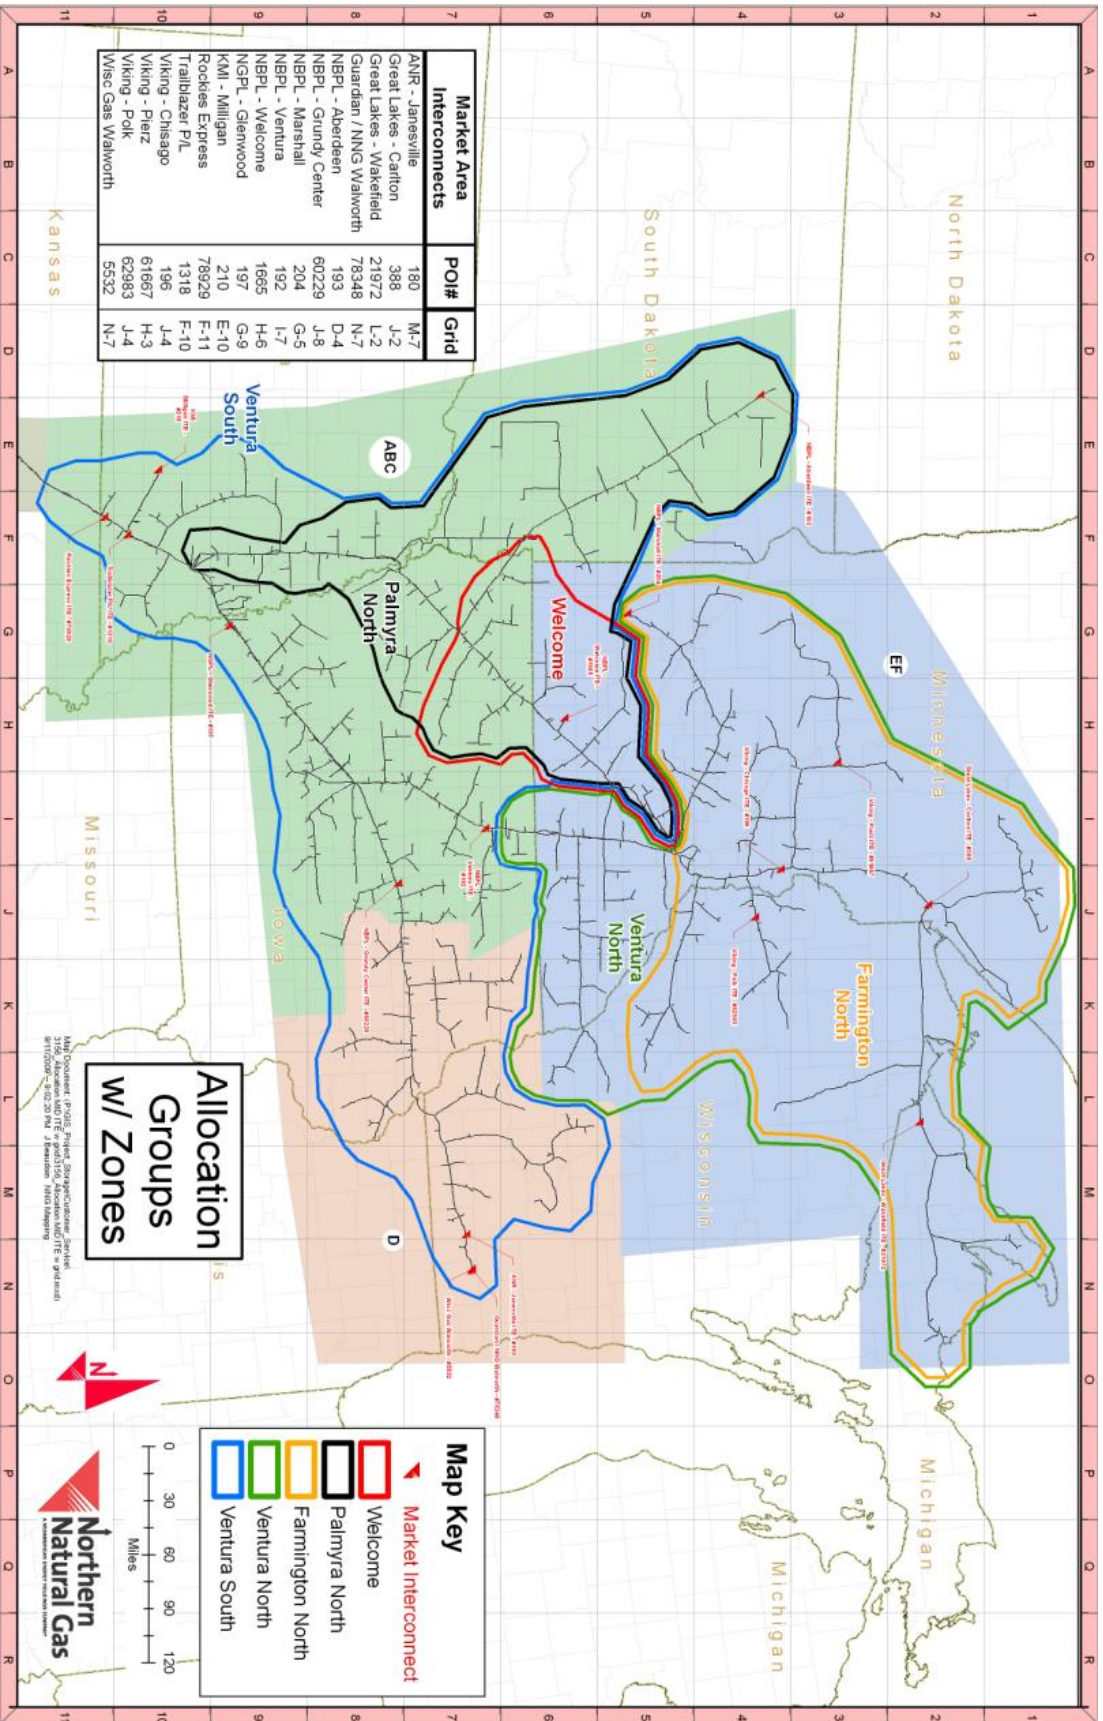

Welcome Nomination Group includes all of the points from the Paullina compressor to the Minneapolis 1P TBS. The group was created to give gas control the ability to maintain system integrity while being sure the smallest effected area is impacted. The restriction is due to large quantities at Welcome being delivered outside the group. All points that are subject to allocation can be viewed by clicking on the following link.

[**Affected Welcome Group Delivery Points**](#)

SPECIFIC RECEIPT POINTS NOT IMPACTED

Nominations from the following receipt points to delivery points within the Welcome Nomination Group would not be impacted by the Welcome allocation because they are unaffected by the constraint. ***However, please note that NONE of these receipt points can be used when “truing-up” daily increase takes on ANY of the allocated delivery points during the Final Cycle. As a reminder, per the 8:00 AM Non-Grid Final Nomination Process Guidelines, NO increases to physical allocated points can be made.***
