

UNITED STATES OF AMERICA

BEFORE THE

FEDERAL ENERGY REGULATORY COMMISSION

Northern Natural Gas Company

Docket No. CP26-130-000

MOTION TO INTERVENE OF Natalia Arndt

Pursuant to Rule 214 of the Federal Energy Regulatory Commission's Rules of Practice and Procedure, Natalia Arndt hereby moves to intervene in the above-captioned proceeding.

I am the owner of property that will be directly crossed, burdened, and materially impacted by the proposed Ventura to Farmington A-line Abandonment and Capacity Replacement Project (V2F Project) and the Northern Lights 2027 Expansion Project (NL27 Project). My property is located in 19661 Dakota ave, Prior Lake MN 55372 and the proposed facilities will impose both temporary and permanent encumbrances on my land.

The proposed project raises significant legal and factual concerns regarding:

- The scope, width, and long-term impact of permanent easements;
- The extent and duration of temporary workspace and construction access;
- Diminution of property value;
- Interference with current and future use of the property;
- Soil compaction, drainage disruption, and long-term agricultural or structural impacts;
- Adequacy of restoration and post-construction conditions;
- The methodology and fairness of any proposed compensation.

I have a direct, substantial, and legally protectable interest in this proceeding. These interests include, but are not limited to:

- Protection of my constitutional rights under the Fifth Amendment, including just compensation for any taking of private property;
- Ensuring that no greater easement or burden is imposed than is strictly necessary;
- Securing full and fair market-based compensation, including all damages, loss of use, and long-term impacts;
- Requiring enforceable restoration standards and accountability for all construction-related harm;

- Preserving my right to challenge any approval or action that inadequately protects landowner interests.

No other party adequately represents my specific and individualized property interests.

I intend to actively participate in this proceeding, including review of all filings, submission of comments, and, if necessary, formal opposition to any aspect of the proposed project that adversely affects my property or fails to provide full legal protection and compensation.

Granting this motion is in the public interest and will ensure that directly affected landowners are properly represented in this proceeding.

WHEREFORE, I respectfully request that the Commission:

1. Grant this Motion to Intervene;
2. Include me on the official service list for this proceeding;
3. Provide me with all filings, notices, and communications related to this docket.

Respectfully submitted,

Natalia Arndt

19661 Dakota Ave, Prior Lake , MN 55372
