Re: Approval of Access Road Entry Widening —Rockford to Buffalo Greenfield Lateral

Dear Mr. Loeffler:

I approve Northern Natural Gas Company's (Northern's) August 23, 2019 request to widen the entry point of the approved access road off Highway 55, from 35 feet to 140 feet. Northern has documented that this modification would have no effect on threatened or endangered species and no adverse effects on properties listed or eligible for listing on the National Register of Historic Places. Northern has obtained permission from the landowner (the Minnesota Department of Transportation) for the modification of the access entry. In addition, we have confirmed the receipt of all required authorizations relevant to the approved activities herein.

Your request is in compliance with environmental condition 5 of the Commission's February 21, 2019, *Order Issuing Certificate* (Order) in above-referenced docket. I remind you that Northern must comply with all applicable remaining terms and conditions of the Order. If you have any questions regarding this approval, you may contact me at 202-502-8130.

Sincerely,

Julia Yuan
Environmental Project Manager
Division of Gas – Environment
and Engineering
