Re: Authorization to Commence Service of Unit 3 at the Faribault Compressor Station

Dear Mr. Loeffler:

I grant Northern Natural Gas Company's (Northern) October 8, 2019 request to commence service of Unit 3 at the Faribault Compressor Station in Rice County, Minnesota associated with the Northern Lights 2019/Rochester Expansion Projects. Your request is in compliance with environmental condition 10 of the Commission's February 21, 2019 *Order Issuing Certificate* (Order) issued to Northern in the above-referenced docket. This authorization is granted on the basis of Northern's most recent construction status report filed October 2, 2019 and construction site photographs contained within the request for in-service. We find that Northern is adequately stabilizing the construction workspaces and that restoration is proceeding satisfactorily.

I remind you that Northern must comply with all applicable remaining terms and conditions of the Order. If you have any questions, please contact Julia Yuan at 202-502-8130.

Sincerely,

Rich McGuire, Director  
Division of Gas - Environment  
and Engineering
