¹ Data request #5 stated "As many agency consultations and permits are in progress, file an updated table 1.6-1 reflecting their status on a monthly basis. Provide any additional agency correspondence not previously filed with the Commission. Records of communication must show both directions of correspondence (i.e., what information was sent to the agency and the agency's response). Clearly identify which agency-recommended mitigation measures Northern would and would not adopt. Provide copies of any permits issued."
