Basis for Intervening:

The CLNG advocates for public policies that advance the use of liquefied natural gas (LNG) in the United States, and its export internationally. A committee of the NGSa, CLNG represents the full value chain, including LNG producers, shippers, terminal operators and developers, providing it with unique insight into the ways in which the vast potential of this abundant and versatile fuel can be fully realized. As a result, CLNG has a direct and substantial interest in the outcome of this proceeding, and its interests cannot be represented adequately by any other party. Accordingly, CLNG requests that the Commission grant its timely intervention in this proceeding.
