Subject: FERC ORDER ON CARLTON, SMS AND DDVC TARIFF WORKING GROUP CHANGES	Notice Status: Initiate
Critical: N	Required Response Indicator Description: 5-No response required
Notice Text:	
<p>On October 30, 2020, in Docket No. RP21-26, the Federal Energy Regulatory Commission issued a letter order accepting, in part, Northern's revised tariff sheets filed October 1, 2020, which was a result of the efforts of the Tariff Working Group created in the rate case settlement. The FERC accepted Northern's ability to waive penalties related to shippers' non-compliance with the Carlton Resolution operational flow orders; however, the proposed changes to Rate Schedule SMS and the DDVC tolerances and penalty provisions, and a waiver request to permit the SMS and DDVC tariff changes to go into effect more than 60 days after the tariff filing were denied, without prejudice to refiling. The Commission did not address whether the rejected tariff proposals are just and reasonable. Northern plans to refile the proposed changes to Rate Schedule SMS and the DDVC tolerance and penalty provisions in the near future.</p> <p>If you have any questions, please contact your account representative.</p>
