**UNOPPOSED MOTION TO PLACE SETTLEMENT RATES INTO
EFFECT ON AN INTERIM BASIS, WAIVE ANSWER PERIOD
AND REQUEST FOR EXPEDITED ACTION**

**To: The Honorable Andrew Satten
 Chief Administrative Law Judge**

**The Honorable Stephanie L. Nagel
Presiding Administrative Law Judge**

Pursuant to Section 4 of the Natural Gas Act (NGA); Rule 212 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (FERC or Commission), 18 C.F.R. § 385.212 (2025); Sections 154.7(a)(9) and 375.307(a)(7)(v) of the Commission's regulations, 18 C.F.R. §§ 154.7(a)(9) and 375.307(a)(7)(v); and the Chief Administrative Law Judge's June 15, 2022, "Notice to the Public,"¹ Northern Natural Gas Company (Northern) moves for an order authorizing it to implement settlement rates identified in the tariff records listed in Appendix A on an interim basis, effective February 1, 2026, and the tariff records listed in Appendix B on an interim basis effective April 1, 2026, (Interim Settlement

Rates),² in advance of and pending the final approval of a comprehensive settlement agreement (Settlement) resolving all issues in the above-captioned proceeding. The Settlement is expected to be filed by March 31, 2026, and to the best of Northern's knowledge and belief will be supported or not opposed by a majority of the active Participants in this case.³

Northern respectfully requests that the answering period under Rule 213(d) of the Commission's rules, 18 C.F.R. § 385.213(d), be waived and that the Motion be granted by February 25, 2026, to allow the lower settlement rates to take effect on an interim basis effective February 1, 2026, to benefit the settling Participants.

I. BACKGROUND

On July 1, 2025, in Docket Nos. RP25-989-000 and RP25-989-001, Northern filed a general Section 4 rate case that proposed rate increases, modifications to certain rate schedules, and various tariff changes. On July 31, 2025, the Commission issued an order accepting the base case (Base Case) rate schedules filed by Northern, suspending them until January 1, 2026, subject to refund, and setting this matter for evidentiary hearing.⁴

² The difference between the rates on Appendix A and Appendix B reflect the Commission approved changes to the electric compression rate effective April 1, 2026, in Docket No. RP26-443-000.

³ Northern circulated this Motion to the Participants in the proceeding and no Participant opposed this Motion.

⁴ *Northern Natural Gas Co.*, 192 FERC ¶ 61,104 (2025).

On October 10, 2025, the Presiding Administrative Law Judge adopted a procedural schedule in this proceeding.⁵ On December 30, 2025, Northern filed two sets of tariff records, contemporaneously, in Docket Nos. RP25-989-000 and RP25-989-001, to become effective January 1, 2026, subject to refund. Northern filed to move its Base Case rates into effect, including adjustments made to reflect actual cost of gas plant in service by the end of the test period (Base Case Rates).⁶ Northern also filed tariff records to move into effect interim rates (Interim Rates), which were accepted by the Commission on January 15, 2026, with the Interim Rates made effective on January 1, 2026.⁷ The Interim Rates are the currently-effective rates set forth in Northern's tariff (Commission Approved Rates). There are no other previous tariff filings with later effective dates which would supersede the Interim Rates tariff records.

II. MOTION

On February 20, 2026, a settlement in principle was reached among Northern, Commission Trial Staff and the majority of the active Participants in this case. The Participants are in the process of drafting the settlement documents to be filed with the Commission and expect to file the Settlement by March 31, 2026.

⁶ The Base Case Rates were accepted by the Commission on January 15, 2026. *See Northern Natural Gas Co.*, Docket Nos. RP25-989-004 (January 15, 2026) (delegated order).

⁷ *See Northern Natural Gas Co.*, Docket No. RP25-989-005 (January 15, 2026) (delegated order).

Northern seeks to implement Interim Settlement Rates on an interim basis pending the finalization, filing and approval of the Settlement.

The Chief Judge has authority to approve "uncontested motions that would result in lower interim settlement rates, pending Commission action on settlement agreements," 18 C.F.R. § 375.307(a)(7)(v). Northern respectfully requests that the Chief Judge approve implementation of the Interim Settlement Rates in this case because no party will be prejudiced by granting this Motion⁸ and, as shown in the enclosed revised tariff records, the reservation rates in the Interim Settlement Rates are lower than the Interim Rates currently in effect and lower than the Base Case Rates. The proposed Interim Settlement Rates are identical to the rates that will be filed upon approval in the Settlement. As shown in the attached redlined tariff records, the overall effect of the Interim Settlement Rates results in lower interim rates than the Commission Approved Rates currently in effect.

Pursuant to Section 154.7(a)(9) of the Commission's regulations, 18 C.F.R. § 154.7(a)(9), and the settlement agreement in principle, Northern requests approval to have the Interim Settlement Rates become effective on February 1, 2026, to be billed March 1, 2026, and requests that this approval be issued by February 25, 2026. Allowing the Interim Settlement Rates to take effect on February 1, 2026, will provide settling parties and other shippers with immediate rate relief and will allow Northern to avoid the administrative burden of billing at the higher currently-

⁸ The settling shippers will receive the benefit of their bargain at the earliest time possible by approval of this Motion.

effective rates and then issuing additional refunds on such rates after approval of the Settlement. Northern requests that the Chief Judge grant any and all waivers necessary to allow the Interim Settlement Rates to become effective on February 1, 2026, pending the finalization, filing, and approval of the Settlement.

This Motion is expressly conditioned upon Northern's receipt of a satisfactory order authorizing Northern to reinstate the Commission Approved Rates for the effective time period, subject to refund, and to surcharge or re-bill its shippers for the difference between the Interim Settlement Rates and the Commission Approved Rates for the applicable prior periods on or after February 1, 2026. Surcharges or re-billings will be applicable only if (i) this proceeding is not resolved as contemplated by the settlement in principle, or (ii) the settlement proceeds as a contested settlement, in which case the Commission Approved Rates would apply to any party that contests the Settlement (Contesting Party) so long as such party remains a Contesting Party. Northern expressly reserves the right to make a filing to terminate the Interim Rates and place the Base Case Rates in effect on 30 calendar days' notice.⁹

⁹ Specifically, Northern reserves the right to file a protective motion to place Base Case Rates in effect on 30 days' calendar notice, such that the Interim Rates will be the Commission Approved Rates from February 1, 2026, until the Base Case Rates become the Commission Approved Rates. *See* Motion to Place Interim Rates into Effect, Docket Nos. RP25-989-000, RP25-989-001, at 2 (filed Dec. 30, 2025) (noting that the Interim Rates would "remain in place subject to Northern's right to terminate the Interim Rates and place the Base Case Rates in effect, subject to refund, on 30 calendar days' notice"). Letter Order Accepting Northern Natural Gas Company's 12/30/2025 Filing of Revised Tariff Records to Place into Effect

Specifically, the Participants agree that, notwithstanding any other provision of law, Northern shall be entitled to: (i) in the event the Settlement does not take effect, reinstate the Commission Approved Rates effective as of February 1, 2026, and surcharge or re-bill all shippers for the difference between the Interim Settlement Rates and the Commission Approved Rates for the applicable prior period; and (ii) in the event the rate proceeding moves forward as to any Contesting Part(ies), reinstate the Commission Approved Rates for Contesting Part(ies) effective as of February 1, 2026, and surcharge or re-bill Contesting Part(ies) for the difference between the Interim Settlement Rates and the Commission Approved Rates for the applicable prior period. Additionally, Northern shall, notwithstanding any other provision of law, be entitled to collect interest, computed pursuant to 18 C.F.R. § 154.501(d), on any surcharge or re-billing issued to recover the difference between the Interim Settlement Rates and the Commission Approved Rate.¹⁰ All refunds will be on a net basis by customer. Northern respectfully requests that the Chief Judge make the foregoing clear in his Order.

III. MOTION TO SHORTEN THE ANSWER PERIOD

Northern circulated a draft of this Motion to all of the Participants in this proceeding prior to filing. No participant has indicated that it opposes the Motion, the request to waive the answering period, or the request for expedited action. For

Reduced Interim Rates, Docket Nos. RP25-989-000, RP25-989-001 (Jan. 15, 2026) (accepting the tariff records "as requested").

¹⁰ *Nat. Gas Clearinghouse v. FERC*, 965 F.2d 1066, 1076-77 (D.C. Cir. 1992).

the foregoing reasons, Northern respectfully requests that the answering period be waived and that this Motion be granted by February 25, 2026, in order to allow the lower Interim Settlement Rates to become effective February 1, 2026. Good cause exists to grant this Motion.

IV. CONCLUSION

Northern respectfully requests that the Chief Judge waive the answering period and expeditiously grant this Motion to permit Northern to place the Interim Settlement Rates into effect effective February 1, 2026, with the conditions set forth herein, pending approval of the Settlement.
