

Notification and Security Administration Overview

Reviewed and Revised March 4, 2025

Notification and Security Administration System

• This system allows customers and other interested parties to elect to receive, via email, selected proprietary information, critical and non-critical notices and other customer communications that are posted to Northern's website.

- Ability to view system access and security for Northern's business applications
- Customer Security Administrator role
 - Approve proprietary notification requests and security access on behalf of employee
- Northern's customer activities sign up form provides the ability to select notifications to receive via email

Notification Categories

- Proprietary
 - Private information that is associated with a specific legal entity
 - Shipper Scheduled Quantity Cut Notice
 - Operator Scheduled Quantity Cut Notice
 - Imbalance to Storage Notice
 - Bump Notice
 - Capacity Release Recall & Reput Notice
- Non-Proprietary
 - Public information that informs customers of critical and non-critical events that may impact the customers' business
 - Critical Notices
 - Non-Critical Notices
 - Other Customer Communications
 - Northern Daily Highlights
 - Northern Notes
 - Regulatory Communications
 - Certificate Filings
 - Orders on Tariff Filings
 - Tariff Filings

User Types

Authorized User

- Individual with a Northern issued User ID for proprietary applications
 - Security access to Northern's business applications
 - Proprietary Notifications
 - Non-Proprietary Notifications
 - Critical
 - Non-Critical
 - Other Customer Communications
- Public User
 - Individual without a Northern issued User ID and not linked to a specific legal entity
 - No security access to Northern's business applications
 - Non-Proprietary Notifications
 - Critical
 - Non-Critical
 - Other Customer Communications
 - Regulatory Communications

Critical Notices

- Non-proprietary notices that inform customers of critical events and/or other information that may impact the customers' business
- If elected, you will receive ALL critical notifications, including:
 - Force Majeure
 - Curtailment
 - Carlton Resolution
 - Critical Day
 - System Overrun Limitation (SOL) / System Underrun Limitation (SUL) / Critical Day

Note: Possible for other NAESB notice types to be made critical (e.g. Operational – System Conditions)

Non-Critical Notices

- Non-proprietary notices that inform customers of non-critical events and other basic information
- Approximately 30 different non-critical notice types have been combined to create 10 notice groups
- Option to receive all of the following notice groups or to select individual notice groups
 - Allocation
 - Business Application
 - Capacity Release
 - Imbalance Resolution
 - Invoicing and Rate
 - Miscellaneous
 - Operational
 - Scheduling
 - Storage
 - TSP Capacity Offering

Other Customer Communications

- Non-proprietary information regarding Northern that are not posted under the non-critical notices, but are available on Northern's website
- Option to receive all communications or to select individual communications
 - Northern Daily Highlights (emailed at 5 a.m. each morning)
 - Northern Notes (typically issued bi-annually)

Regulatory Communications

- Non-proprietary information regarding regulatory communications with the Federal Energy Regulatory Commission
- Option to receive all communications or to select individual communications
 - Certificate Filings
 - Orders on Tariff Filings
 - Tariff Filings

Allocation Notice – Transport

TSP Name: Northern Natural Gas Company	Post Date/Time: 2/13/2024 8:06:37 PM
TSP: 784158214	Notice Effective Date/Time: 2/13/2024 9:00 AM

Notification and Security Administration

This system allows customers and other interested parties to elect to receive, via email, selected proprietary information, critical and non-critical notices and other customer communications that are posted to Northern Natural Gas' website. The application will provide immediate notification of communications that may impact your business operations. Additionally, each customer has the ability to view its system access and security levels for all of Northern's business applications, including the Capacity Release System, Contract Management System, Flowing Gas, Invoicing, Imbalance Resolution and Throughput Management System.

Authorized User Profile

Request Proprietary and Non-Proprietary Email Notification and Security Access Upon request, Northern will provide the following email notifications and security access to any Authorized user (an individual who has access to Northern's proprietary applications)

- Bump Notifications Proprietary
- Shipper Scheduled Quantity Cut Notifications Proprietary
- Capacity Release Recall & Reput Notifications Proprietary
- Imbalance to Storage Notifications Proprietary
- Critical Notifications
- Non-Critical Notifications
- Northern Notes Newsletter
- Northern Daily Highlights
- Invoice Availability Notification
- Regulatory Notifications (Orders on Tariff Filings, Tariff Filings and Certificate Filings)
- View System Access and Security Levels

Public User Profile

Request Proprietary and Request Non-Proprietary Email Notifications Upon request, Northern will provide the following email notifications to any**Public user** (an individual who does not have access to Northern's proprietary applications)

Printable Version

- Critical Notifications
- Non-Critical Notifications

Authorized User - Profile

Notice

This form allows an authorized user, an individual with a User ID for Northern's proprietary applications, to request and receive selected proprietary and non-proprietary notices, including critical and non-critical notices and other customer communications that have been posted to Northern's website. Notifications will be sent to the email address designated by the authorized user. Email notification elections may be amended at any time by accessing the Notification and Security Administration System using the individual's assigned User ID. Each authorized user is responsible for ensuring the email information is current. An authorized user has the ability to view its system access and security levels for all of Northern's business applications, including the Capacity Release System, Contract Management System, Flowing Gas, Invoicing, Imbalance Resolution and Throughput Management System.

Northern will not share or sell information provided in this form to third parties.
