

---

On July 1, 2019, Northern Natural Gas filed a Section 4 rate case. The proposed increase is directly related to changes in depreciation and negative salvage rates, and the cost of service impact due to increased non-growth capital requirements since Northern's last rate case. Rates are expected to go into effect, subject to refund, on January 1, 2020. Northern's filing, Docket No. RP19-1353-000, can be found by using the following links.
